Important Notes on payment in instalments:

- For the annual fee payment option, payment in instalments is not accepted. Payment in instalments apply only to semester tuition fee payments.

- It is important to ensure that the amount required for the realisation of instalment payments is in the account to be specified by the financial institutions providing the loan on the relevant payment day. Day-based interest will be charged to these amounts not deposited in the account specified by the financial institutions.
- Parents who prefer the instalment payment option should choose Yapı Kredi. Your instalment must be completed before **August 31, 2023**.
- In addition to the instalment payment plan that Koç University has provided, it is possible to use Education / Consumer Loan with various maturity and payment options from any financial institution of your choice. However, the entire amount must be paid to Koç University as stated in "Advance Payment Option". Since the internal evaluation processes of Yapı Kredi for instalment applications take time, it is essential not to leave the application process to the last days.

Yapı Kredi Bankası Installment Plan: You can learn your application results in a few minutes after applying through Yapı Kredi quick application channels (branches, Installment Education System page at yapikredi.com.tr or SMS with the "KOCUNIEGT" school code). The instruction entry step must be performed after the application approval to complete the registration process.
